Bobble Hat Day

CREATE YOUR OWN FESTIVE HAT
TO WEAR ON BOBBLE HAT DAY.

Instructions

1. Get some reindeer coloured card, and measure the circumference of your head (if you don't have measuring tape, just use the card). Cut the card so it fits around your head. Leave 3cm spare to glue the hat together. Make the height between 10–15cm (enough for Rudolph's face!).
2. Glue or staple the ends of the card together, making a tube shape. That's Rudolph's face.
3. On another piece of coloured card (a nice Christmassy red looks good), draw around your hands and cut out the shapes. Stick these to each side of the tube to make antlers.
4. Decorate Rudolph's face – add googly eyes, a bobble nose (red of course) and draw the mouth.
