

Age 9+ pupils, teachers and parents

NUMBER DAY MATCH

Fun with numbers

Number Day Match involves lots and lots of numbers that all relate to the work of the NSPCC, but will you match the correct numbers to the correct question?

Number Day Match can involve pupils, teachers and parents too. The whole school can have fun while learning about the NSPCC and raising money at the same time. Pupils can be given the question sheet and asked to guess the answers or research using the NSPCC website www.nspcc.org.uk

How to raise money

Pupils, parents and teachers can be sponsored for every question they get right or parents and carers can make a donation.

What you need:

- The question sheet, which contains a series of questions about the NSPCC as well as the answers – however the answers need to be matched to the correct question.
- A small prize for the winning person/team (optional).

How to play:

1. Number Day Match can be run in class or as an activity for pupils to complete at home.
2. The activity can be done individually, in teams, or you could invite parents and staff to join in.
3. You could choose to set this as research or homework for older pupils. They could use the NSPCC website to find their answers and learn more about the history of the NSPCC and how we help children.

NUMBER DAY MATCH-QUIZ

To take part, draw a line from the question to the answer.

- | | |
|--|---|
| 1. What year did NSPCC form? | 0800 1111 |
