Bot Trump Cards

- 1:** Cut out the cards and share them out equally between all the players.
- 2:** Place your cards in a pile face down.
- 3:** First player picks the card at the top of the pile and chooses a category.
- 4:** Each player works out the answer for that category and the player with the biggest answer wins the card.
- 5:** If the answers are of the same value the card goes in to the middle ready to be taken by the winner of the next round.
- 6:** Start a new round with the winning player picking a new card and category.
- 7:** The winner is the player who first collects all the cards.
