5-7 year old resources: Multiplying Money

Featuring
curriculum linked
resources from
the LifeSavers
programme

**Number
Day**

It's never too early to make the link between numbers and money with children

Habits formed in childhood can last a lifetime. It is important to start teaching and talking about money with children from a young age.

Research shows that financial habits begin to form as early as ages 4-7. And yet, financial education is not taught in primary schools through a consistent curriculum and learning experience. This puts some children at a disadvantage compared to their peers and can impact their financial confidence as they grow older.

Teaching and talking about money at home and at school encourages open communication. It helps children feel comfortable discussing financial choices and seeking advice, fostering a supportive environment where they can learn and grow.

We've put together some fun activities to help to start conversations with children aged 4 to 11 about money at school and at home.

How long will it take to save?

Milo is thinking about all the things he wants to buy and how long it will take him to save for them.

Can you help Milo work out how long it will take him to save up for the things that he wants?

The teddy costs £5. If Milo gets 50p every week, how many weeks will it take before he has enough to buy it?

The robot costs £30. If Milo gets £3 every week, how many weeks will it take before he has enough to buy it?

What if he already had two 50p coins in his piggy bank?

ANSWERS

It will take Milo 10 weeks to save up to buy the Teddy.

If Milo already has 2 x 50p it will take 8 weeks to save up to buy the Teddy.

It will take Milo 10 weeks to save up to buy the Robot.

Just Finance Foundation (JFF) is a national charity dedicated to improving financial wellbeing across the UK through financial education. JFF provides schools with innovative financial education programmes that equip the next generation with the skills, knowledge and confidence to make informed money choices. JFF also supports families to feel confident teaching and talking about money at home, and advocates for financial literacy to be prioritised in education outcomes.

LifeSavers is our financial education programme, delivered free to primary schools across the UK. We work directly with teachers, educators and schools to provide a wide range of curriculum linked classroom resources and practical activities to engage children with financial education from a young age.
